"Do the letters 'st,' 'd' and 'th' have to be followed by a period when used thus: 1st, 2d, 4th? What is this combination-an abbreviation, contraction or merely a sign?"

In the forms 1st, 2d, 4th, etc., we have ordinal numerals in which an Arabic figure is substituted for the spelled out which the ordinal is derived. The letters added to the Arabic numeral form the specific inflection which changes the cardinal to an ordinal numeral The forms in question, then, are nelther abbreviations nor contractions, nor yet mere signs. They are like a humorist's b4 for before, only they are not whimsical, as they would be if no one had seen them before and some one should suddenly use them.-Literary Digest.
